

Achievements

Our amplifiers are installed in variety of venues across the United Kingdom with notable installations in:

2007 -Bournemouth, Opera House. One of the largest live sound venues on the south coast of England. After a major restoration and refit of this beautiful venue FFA amplifiers were specified to power the main in house sound system of 12 elements of Martin Audio Line Array and 6 x Martin high power 2x18 bass powered by FFA-2000, FFA-3600, FFA-6000 and FFA-10000 on bass. The 12 mix bi-amp Martin stage monitor also powered by FFA-2000 and FFA-3600 amplifiers. FFA amplifiers power the foyer DJ driven Funktion One Resolution system.

2007 Hush Bournemouth - high end glitzy nightclub installation with Martin Audio custom coloured white loudspeakers all driven by FFA

2007 Dusk til Dawn - respected underground dance venue installed with Funktion One resolution

2007 Liverpool at the Nation - Cream in house engineer Andy Kayll specified FFA to upgrade the ageing power amps driving the massive Phazon sound system in the main room and then as funds became available over the next 2 years has replaced the 2nd Courtyard Phazon system and legendary Annex Phazon system. FFA-2000, FFA-3600, FFA-6000, FFA-8000, FFA-10000 were matched to the systems specific power requirements. The Phazon system in each room features the infamous 'Bertha' bass cabinet which is one of the largest bass enclosures used in any installation.

The Arena - Middlesbrough North of England Turbosound Aspect all powered by FFA-8000, FFA-6000 and FFA-3600 across 2 rooms

London venues include

2008 The Egg - Major London Dance Music venue's 5 year old Funktion One system 5 year old was beginning to sound tired and was underpowered so as funds became available and over a period of time the existing bass amplifiers in the main room and room 2 were replaced with FFA-8000 and the new FFA-10000.

2007 The TBar - one of the first permanent venues installed with FFA and one of the most powerful full bar installations in London. This very discerning industrial designed underground dance venue where no charge is made for entrance and world renowned DJs play for free. Packed every night playing the forefront of underground dance the T Bar's amp rack is on full display in the DJ box for everyone to see.

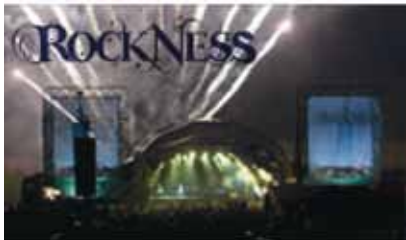

Achievements

2006 Corsica Studios - Venue Owner Adrian Jones wanted to purchase a high performance system and after demonstration of various manufactures system chose Funktion One and FFA for his 2 rooms at the Elephant and Castle Venue in London. The Venues host many genres of music from fully live and experimental sounds to extreme bass driven dubstep and dance. FFA-8000, FFA6000 and FFA-3600 power the systems.

2007 the Big Chill House Kings cross london - FFA power the Turbosound system across the 3 rooms .

2007 Dex Club - Boutique Hotel and private members music industry club in the heart of Brixton London. FFA drive the Funktion One system.

FFA Abroad:

Further a field we have large scale nightclub installations in Holland, France and Morocco.

Music Festivals:

Another application is for temporary installation for outdoor summer music festivals. Generated power is generally used and this presents no issue to our amplifiers. 2008 - Full Fat Audio amplifiers were used at the UK's largest festival -

Rockness 2009 (Main stages powered by FFA)

Glastonbury (10 stages powered by FFA.)

2008 Bestival

Camp Bestival

Reading

Creamfields

Electric Picnic - Ireland

Workhouse

The Glade

Del Pueblo

all saw stages powered by FFA driven loudspeaker systems.....
